

Math 1 A/B

How to Learn Math

Lesson 4b: Mathematical Reasoning and Connections

Name: _____

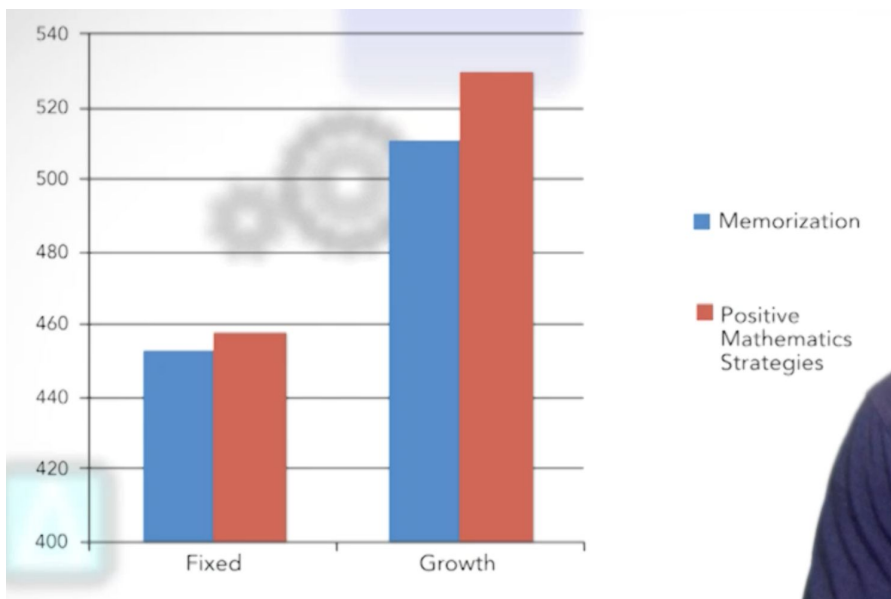

Date: _____

Period: _____

Before you begin...

Today you will be asked to write about the strategies that help people do well in math. As you hear about them in the video, write them down here:

“PISA Results”

What are two things that you see in the graph above from PISA? Who does really well in math?

“Mathematical Strategies”

In this session we have learned about number flexibility, talking, reasoning and mathematical connections.

Write about some of these important ideas for someone of your own age. In a paragraph explain to them why these ideas are important for their learning.
